Imagination
It’s our business

We have been working alongside schools to produce durable wooden play products for over two decades. Our ideas have coincided with the emerging consensus in the importance of time outside the classroom, not least the role of imaginative play.

Our business, working closely with teachers, PTA’s and children to create structures which encourage play, active learning and enable children to play together. Structures which are safe, look good in the school environment and will provide years of enjoyment for many children.

All the products in this catalogue are designed and built by us. This ensures we keep total control of the quality of our products. We also deliver and install all but the very smallest of our products to ensure that they are ready for the most demanding of all customers, children.

This is our most comprehensive range yet and it’s where our service begins rather than ends. We have an experienced team ready to shape your ideas into reality and we can’t wait to hear from you.

We hope our 2016/17 catalogue inspires ideas for your school and children.
Creativity and Quality

Original Designs

Children are inspiring customers. They are brilliant at separating the interesting from the run of the mill. Classroom Lofts, for example, are a winner because the children appreciate a different, more exciting dimension to the classroom. An outside theatre suddenly inspires a new generation of performers. And a castle in the playground suddenly adds decibels to playtime - just what you want! We have our hand in every design you see in the Catalogue. They are all originals, just like your children.

Made to Comply

All of our products are designed and built to be entirely safe and we go above and beyond to guarantee this. We ensure full compliance with relevant regulations, principally EN1176-1 playground equipment and EN71-1 children toys. All our products are built to comply with the CE regulations.

Delivery and Installation

Some of the simpler products you see, such as Picnic Benches, are delivered ready to use (or for very straightforward assembly). Mostly however, we deliver ourselves to your school and our own team install on site. This ensures everything is perfectly in place when you invite the children to put them to the test. It’s a bonus for us if we see those first smiles and we know it’s a job done well. We take safeguarding very seriously as you would expect so all visits are planned with school offices well in advance.
All our product ranges are designed to encourage learning. We think carefully about the needs of the curriculum and particularly the importance of outdoor play. From building motor skills to stimulating imaginative group play we design to achieve twin objectives of learning and fun.
Classroom Lofts

Classroom lofts are a fantastic way of increasing the amount of usable space in classrooms.

Versatile and durable, they increase the usability of a classroom and add a new and exciting dimension, creating a positive and interactive learning environment that is fun for children and an invaluable resource for teachers.

They are free standing structures which fit into your classroom like a piece of furniture.

Change the theme of your classroom loft to fit in with the curriculum, have a quiet reading area, a technology area or whatever you and the children decide.

Lofts are designed to provide years of safe service. However, we do recommend you consider our maintenance package for complete peace of mind. Details of which can be seen on page 122 or by visiting:

www.educationalplay.co.uk/classroom-loft-maintenance-package
The Literacy Loft has all the “space gaining” benefits of our other classroom lofts but with integral shelving, white and black boards and a small stage as standard. It comes tailor-made to provide a designated space for small reading and phonic groups.

A low stage to the front extends into the lower loft which has a wide entrance flanked by two long rectangular blackboards while the rear wall is made up of a large rectangular whiteboard.

The blackboards sit in front of shelving units built into the sides of the lower loft. This integral shelving was top of the wish list for teachers, providing essential extra space for books and phonic learning materials.

**Product Code: CL160262**
A free-standing loft that snuggles into the corner of a classroom, the Creative Corner Loft has been designed to bring new life and purpose to weary corners and to transform them into vibrant multi-purpose areas. This loft is primarily aimed at Key stage 1 and 2 learners.

The ground floor area has a large open doorway to the front with a low panelled wall to one side and a full panel wall on the staircase side.

The open access and low panelled wall mean that there is good visibility into the lower loft area from the classroom and also that this area is light and well ventilated.

**Product Code: CL120241**

Inspired by feedback from teachers, the Learning Loft has all the “space gaining” benefits of our other classroom lofts but comes with lots of integral shelving and a small stage as standard to provide a safe environment that fully supports early years educational programmes.

The Learning Loft has five distinct areas; two lower lofts, two upper lofts and a small stage area. There is built-in shelving under the staircases at the front and along the back wall.

Access to the lower lofts is found at the far left and right of this classroom loft whilst a single central step leads onto the stage and then to a staircase on either side to the upper platform.

**Product Code: CL151153**
The Warren Loft

£3,305 (exc. VAT)

The Warren has been designed to be equally at home in a corner or mid-point of a room. The central staircase sits snugly between the two lower lofts and leads to a platform on the right and left hand side.

The lower loft areas have been designed to look different to each other. One side has an open “entrance” to the front and left hand side and a solid panel wall to the rear. The other side has a solid panel to the right hand side and a curved door way and window cut out to the front.

These sides are interchangeable and can be positioned to suit each classroom. The side with the door and window provides a useful prompt for class role play activities while the other side provides a more flexible space.

Product Code: CL120192
The Spacemaker Loft

£2,650 (exc. VAT)

Another of our lofts primarily for Early Years Foundation and Key Stage 1 classrooms. Our Spacemaker Loft lives up to its name by providing additional and flexible space that can be tailored to the needs of a particular year group in any given year.

The lower section of the Spacemaker sits directly against a classroom wall and does not include a panel to the rear. The wall opposite the staircase has a half panel wall. To the front there is a full panel that incorporates two open windows, while to the side with the staircase, a full panel wall incorporates another open window and doorway.

Product Code: CL120195
The Camp Loft

£2,235 (exc. VAT)

Designed with Early Years Foundation and Key Stage 1 learners in mind the Camp Loft brings an exciting new dimension to the most basic of classrooms and is cherished all the more by young learners because it is a space built to suit small statures.

The lower area of the loft is open on two sides which allows for a great deal of versatility in terms of positioning within a classroom as it as fits neatly into a corner as a more central position within the classroom.

The open sides also allow teachers a better range of visibility into the lower loft. The solid wall adjacent to the staircase has different shaped “spy holes” so children can keep an eye on who is going up the stairs.

Product Code: CL120194

If you can imagine a loft in your classroom, we can make it happen!

If you love the concept of lofts and the interesting dimension they can add to your teaching then we are very confident we can realise this potential in your classroom. We can visit your class in person, discuss options with you and follow up with suggested plans. We have encountered many a classroom which fits into the ‘awkward’ category... we’ve always produced a loft to fit.
Playhouses

Playhouses tick a lot of boxes for schools looking to enhance the outside play and learning scope of the playground. They offer protection from the elements and a place for children to enjoy group play in a setting designed to fire their imaginations.

A school playhouse serves an important role in providing access to outdoor fun. We place great store on the design of our Playhouses; putting safety first by paying attention to every little detail of the build, from non-trap hinges to anti slip floors. This ensures that our work reflects the quality of your school environment. We want to impress you, the children and their parents!

Have a look at our standard Playhouse range here and don’t forget we have more details and lots of bespoke projects on our website.
About this Playhouse

- Felt shingle roofing
- Translucent timber protection finish
- Walls in natural
- Doors, windows, fascia and balustrades in smokey blue.

Smokey Blue  Natural
The School Treehouse

£5,095 (exc. VAT)

This raised treehouse with additional platform and sandpit provides something for everyone and encourages multi-level play with a high platform to the left hand side which covers a sandpit below.

The playhouse sits on a platform 0.9m (2ft 11in) from the ground and is accessed via a staircase. The playhouse itself has a standard door to the front with a diamond shape cut out. There is a rectangular non-opening window to either side of the door.

There are two additional rectangular windows in the right hand wall and a small diamond window on the left which ensure that plenty of natural light can get into the playhouse.

Product Code: EPPHC120146
About this Playhouse

- Felt shingle roofing
- Translucent timber protection finish
- Walls in natural
- Doors, windows, and fascia in smokey blue.

Smokey Blue  Natural
The School Playhouse

£7,105 (exc. VAT)

One of our largest and most popular playground playhouses this boasts two access doors and plenty of windows to maximise the natural light and offering lots of potential for creative role-play games.

This playhouse creates a great ‘go to’ destination in break times, a fantastic back drop for outdoor play and is large enough to be utilised as a learning space for small group work.

To the front there is standard door with diamond shape cut out which sits beneath a central gable and creates extra headroom over the main entrance to the playhouse.

The front door is flanked by a rectangular non opening window on either side and there is a small octagonal window above the door.

Exterior planters sold separately.

Product Code: EPPHC120242

Available in three different sizes these lovely playhouses have been built with Early Years and Key Stage 1 children firmly in mind and provide a made to measure play area for small statures which instil a sense of ownership and pride in children.

The Playhouses have a standard central door with a diamond cut out and a non-opening rectangular window on either side, the roof detailing in our Cottage houses is straight edged.

The Cottage Playhouse makes a lovely addition to any playground and is most frequently used for encouraging imaginative role play games as well as a back drop for school plays.

The price highlighted above is the price for the build spec featured.

Product Code: EPPHC160225
About this Playhouse

- Cedar shingle roofing
- Translucent timber protection finish
- Walls in lancelot blue
- Doors, windows, and fascia in red.
The Gingerbread House

From £2,820 (exc. VAT)

Our Gingerbread playhouses enable children to have a fairy tale cottage in their own playgrounds. Available in three sizes these playhouses are suitable for both Key Stage 1 & 2.

To the front of our Gingerbread houses there is a central standard door with diamond shape cut out and a non-opening window sits on either side of the door. The roof detailing in our Gingerbread Houses is a scalloped edge.

The price highlighted above is the price for the build spec featured.

Product Code: EPPHC160226
About this Playhouse

- Mineral felted roof
- Translucent timber protection finish
- Walls and balustrades in Blueberry
- Doors, windows and fascia in opal white.
The Ranch Playhouse

From £4,230 (exc. VAT)

The inclusion of a veranda on this playhouse adds a certain panache and creates a small sheltered outdoor area and a style all of its own. It is available in three sizes and suitable for most year groups.

The roof extends on the right hand side of the ranch playhouse and creates a sheltered veranda area. There is a door with diamond shape cut out and non-opening window on this side. On the left hand side there are a further two windows (three on the largest version). The front has another door and two windows. Including plenty of windows allows lots of natural light to get inside the playhouse.

The price highlighted above is the price for the build spec featured.

Product Code: EPPHC160221
If you have space for imagination to flourish, we can make it happen!

We produce almost as many custom designed playhouses as we do standard. It tends to follow a lot of detailed consideration at school and very often ideas flow about what the playhouse could also be used for. So perhaps it could be bigger, or be built around a tree or on an awkward slope. We love to hear your ideas and the good news is... anything is possible!
Shelters

Ofsted states “outdoor learning provides depth to the curriculum and makes an important contribution to pupil's physical, personal and social education.” The British weather, however, doesn't always make this easy so a Playground Shelter is a great way of providing an outdoor space that is sheltered, safe and secure.

Our Shelters are weatherproof and cosy, big and small and we are sure you can find out to suit the needs of your children.
About this Shelter

- Mineral felt roofing
- Translucent timber protection finish
- Walls in natural
- Window frames and balustrades in smokey blue.

Smokey Blue  Natural
Lots of children have an instinctive love of being aloft, this originates from the thrill of learning to move and walk as a toddler and the excitement of being able to clamber onto something to feel taller and see things not visible from a lower level.

Our popular Treehouse Shelter, available in four different sizes, recognises this instinctive drive and balances it with optimum safety by ensuring a critical fall height of 0.6m and allowing the tree house shelter to be safely installed onto either grass or tarmac without the need for a soft fall surface.

The price highlighted above is the price for the build spec featured.

Product Code: SH120558
About this Shelter

- Felt shingle roofing
- Translucent timber protection finish
- Walls and gables in Teak
- Roof details in Red.

Teak  Red
An ideal playground hideaway for catching up with friends at break time or a spacious outdoor classroom; The Corner Room provides an enhanced learning and play environment to benefit all children.

With its large open entrances and low panelled sides, The Corner Room Shelter provides children with a safe outdoor environment where they are contained and protected yet able to reap the benefits of being out in the fresh air.

The L shaped design is ideal for the corner of a playground and its shape adds a cosy feel to this large shelter.

Teak

Red
At over 6 metres long, our Long Room Shelter lives up to its name and provides plenty of versatile outdoor space that can be used as an outdoor teaching area in all but the very worst weather conditions.

One of the key features of the Long Room is the low ramp entrance point which ensures that it is accessible to wheelchair users. The step sits underneath a feature apex in the roof which adds character and style not to mention providing extra head room over the entrance.

Product Code: SH110883
About this Shelter

- Mineral felt roofing
- Translucent timber protection finish
- Walls in eucalyptus
- Windows and fascia in opal white.
The Retreat Shelter

From £3,290 (exc. VAT)

This attractive and practical corner playground shelter creates a flexible and adaptable outdoor learning and play space.

Available in three sizes this shelter provides a school with a versatile and open space that can be used as a location for outdoor lessons and/or role play as well as a super spot for playing and catching up with friends at break times.

A large entrance under a raised apex with a small octagonal window creates a very spacious feel with plenty of headroom for adults and lots of space to minimise congestion and provide ease of access for all agilities.

At the rear of the shelter there is a solid wall with three non-opening glazed windows. The windows are set at differing heights providing protection, look out points and decorative interest. Seating can be added (as shown) for an additional cost.

The price highlighted above is the price for the build spec featured.

Product Code: SH100711
About this Shelter

- Mineral felt roofing
- Finished in natural.
The Large Shelter is a fantastic multi-purpose shelter, it can be used as an outdoor classroom, a break time meeting place, an area for guided or non-guided outdoor role play or simply a space to sit and chat with friends in all but the very worst of weather.

Capitalising on the many benefits of providing a safe and sheltered outdoor space for children, the Large Shelter is available in different sizes to suit different playgrounds and budgets.

The Large Shelter has a high roof and low panel walls so there's plenty of visibility into and out of this shelter and the decked floor means children are never traipsing mud back into the classroom. Seating can be added (as shown) for an additional cost.

The price highlighted above is the price for the build spec featured.

**Product Code: SH091132**
About this Shelter

- Mineral felt roofing
- Translucent timber protection finish
- Posts in mais yellow
- Walls and fascia in lancelot blue.
Available in three different sizes, with or without seating, the Regular Shelter provides children with their own made to measure outdoor space that is sheltered and safe.

There are so many benefits to be gained in getting children outdoors and a cosy meeting place that provides protection from drizzle and bright sunlight can be just the thing that encourages them to spend more of their break time in the playground.

Our regular shelter has a high roof and low panel walls so there’s plenty of visibility into and out of this shelter, the decked floor provides a strong and solid base.

Seating can be added (as shown) for an additional cost. The price highlighted above is the price for the build spec featured.

**Product Code: SH090145**

Once you start thinking about a Play Shelter, ideas of how it can be used start flowing. It could be a theatre or a bandstand or... keep your ideas coming and then tell us about them. We are experienced in taking ideas and transforming them into visuals and then the real thing. We make what we deliver so we are always happy to produce whatever you feel will be best for your playground.
Castles

What better way to get a child’s creativity and imagination flowing than a castle? Whether used in individual play or group play, a castle provides endless amounts of imaginative fun.

Children can protect their castle from dragons, stay safe from drowning in the moat, be a brave knight saving the princess or banish the evil queen from her throne.

A castle provides a great play space that children can get lost and totally immersed in their imagination which leads to positive learning and growth.

Our castles come in different sizes with different play activities, levels and seating areas but always guarantee imaginative play.
The Windsor Collection
Quadruple Tower

£4,150 (exc. VAT)

Designed specifically for Early Years and Key Stage 1 year groups the Little Chunky Windsor Collection is a modular collection of towers and linking walkways that range from a single unit to a unit with four towers and three walkways.

The Windsor Quadruple Tower comprises four towers; two to the fore and two to the rear.

There are three interlinking walkways and offers maximum fun with minimum congestion potential for large groups. There is also seating in each corner.

The Windsor Collection
Triple Tower

£3,045 (exc. VAT)

The Triple Tower comprises three towers; one to the fore and two to the rear making it perfect for playground corners.

The front tower is linked by a walkway of 1m (3ft 3in) in length to a tower immediately behind it and this in turn is then linked by a similar walkway to another tower to the right. There is seating in each corner of the towers and the walkways are painted with black anti-slip paint.

The various windows and doorways give good visibility both in and out.

Product Code: LC160240
The Double Tower comprises two towers linked by a walkway of 1m (3ft 3in) in length.

To the front of each tower there is a large open arched doorway. The outer walls both have two smaller arched windows whilst the inner walls have a small single arched doorway that opens onto the walkway. The walkway is painted with anti-slip paint for added safety. The back wall of each tower is solid, and there is seating in each corner.

Product Code: LC121106
The Single Tower has an open arch shaped doorway to the front and a large arched window to the left hand side. There are also two smaller arched windows to the right hand side and a solid rear wall with seating in each corner.

**The Windsor Collection Single Tower**

£960 (exc. VAT)

The Single Tower has an open arch shaped doorway to the front and a large arched window to the left hand side. There are also two smaller arched windows to the right hand side and a solid rear wall with seating in each corner.

**Product Code: LC130725**
About this Castle

- Translucent timber protection finish
- Walls and balustrade rails finished in chicago grey
- Doorways and windows finished in black.
Open to the elements the Castle with Platforms includes a central low level tower flanked by a raised platform on each side.

This playground Castle is primarily aimed at Early Years and Key Stage 1 and provides lots of potential for adventurous game play.

The open topped tower sits in the centre of the structure and has a central octagonal topped doorway, two castle style slit window sits either side of the door, (only one window in the smaller size). The windows provide useful look out points to see who might be invading.

The price highlighted above is the price for the build spec featured.

**Product Code: EPPHC160220**
About this Castle

- Translucent timber protection finish
- Walls and balustrade finished in teak
- Doorways and windows finished in natural.
Wooden Castle Play Platform

From £8,670 (exc. VAT)

A castle fit for royalty and guaranteed to fire imaginations of all children our Turreted Castle comprises a tall castle, two look-out towers, a raised open platform and raised walkways all surrounding an inner bailey, otherwise known as a ground level play area!

Starting at the front at ground on the left hand side the tall castle tower can be accessed via an open doorway to the front and on both the left and right hand side. Once inside the tower a staircase leads to a raised walkway and to the first of the look-out towers.

The look-out tower leads to a raised open platform surrounded by balustrade rails at the rear and leads via the next walkway to the second of the look-out towers with a staircase leading to the ground.

Product Code: EPPHC160373
About this Castle

- Translucent timber protection finish.
- Finished in natural.
Twin Towered Castle

From £4,280 (exc. VAT)

Skipton Castle in Yorkshire withstood a three year siege during the English civil war; we’re not promising that our twin towered castle would fare as well in those circumstances but it is certainly built to withstand the rigours of the playground.

This playground Castle has two tall towers to the front separated by an open doorway leading into an open decked floor area. Two more open doorways on the right and left hand side allow for different circuits in and out of the structure as a whole and provide a great arena for free flow play.

There are castle-style slit windows in each tower as well as a fitted bench along one wall for times when a nice sit down is needed. An internal platform with staircase to each end adds another dimension to this castle.

The price highlighted above is the price for the build spec featured.

Product Code: EPPHC13053
Children love castles and a play castle in the playground can provide a fantastic way to open up lots of classroom discussions about history and geography.

If you think your castle could be different, bigger or built to a different shape then please let us know. We will be pleased to visit your school and share ideas with you; after all it’s how our selection of tailor-made Playground Castles began.
Platforms

Step Up is an innovate play range that recognises the importance of exposing children to variety and adventure at play time. It is a series of modular raised platforms and walkways that encourages both active and interactive free-flow play among children while adding an element of excitement by being raised above ground level.

The modular nature of Step Up ensures that it is suitable for all shapes and sizes of play area as schools can choose and combine platforms and walkways as they wish and can add additional walkways and platforms over time as budgets allow.
The largest of our Step Up range, The Discovery includes five interlinking platforms that provide the ultimate in outdoor free flow play where children can take the lead and practise skills across all aspects of their development.

The Discovery has two large 1.8m square platforms, a 1.5m square central platform and two 1.2m square platforms with six walkways and three staircase access points.

The triple access aspect encourages children to invent and reinvent different ways of using and negotiating ways around The Discovery which makes sure that they are developing cognitive skills as well as physical and social skills such as sharing ideas and waiting in turn.

£6,970 (exc. VAT)
The third of our Step Up range, The Explorer includes four interlinked platforms to encourage a variety of active outdoor play and help children gain confidence in skills such as balance and co-ordination.

The Explorer has one large 1.8m square platform to the rear, a central 1.5m square platform and two 1.2m square platforms with staircases.

The clever design of The Explorer enables free flow yet contained play where children can learn and practice social skills such as sharing and turn-taking as well as gaining confidence in physical skills and enjoying the sensation of being “up high” and getting lots of fresh air.

The Explorer

£3,705 (exc. VAT)
The Pathfinder

£3,050 (exc. VAT)

The second of our Step Up range, The Pathfinder includes three interlinking platforms that encourage free-flow outdoor play and allow children to make the most of play time while gaining social and physical skills.

The Pathfinder has three same size platforms, two interlinking walkways and two staircase access points.

The double access aspect of The Pathfinder encourages children to make circuits and helps to minimise potential congestion.

A low staircase at the front leads to the first platform which then leads onto a walkway and the second platform. From here another walkway leads to the third platform with a staircase.

Product Code: SU160249
The smallest of our Step Up range The Wanderer is designed to encourage free flowing and imaginative play; it consists of two raised platforms, each with an access staircase, linked by a walkway.

Many young children have an innate affinity for climbing and being up high, whether it's clambering on top of sofas or begging for "shoulder-rides". The Wanderer provides them with an acceptable and safe place to act this out.

The Wanderer is small and contained with two access points to minimise potential congestion, it allows young children the thrill of being above ground level and provides them with a safe environment for gaining confidence.

**Product Code: SU160248**
If you can imagine a new perspective, we can make it happen!

We call them platforms but as you can see they are elevated structures which can provide a great mix of activities. And because they are up in the air, children enjoy them all the more! We can make them any size and to make use of any natural slopes or trees you have to work with or around. Would your children enjoy a taste of adventure?
Boats

Role play is a great way to encourage learning through play and a boat offers a great opportunity for just that within a playground.

Being a pirate or a mermaid in a boat allows imagination to run free and a play boat is also a good tool for teaching children about the sea.

For the youngest sailors please take a look at our Little Chunky boats. Your seasoned seafarers may prefer to board the more authentic craft in The Playhouse Company collection.
About this Boat

- Translucent timber protection finish
- Walls in natural
- Window frames and doorway in lancelot blue.
The Fishing Boat
From £2,960 (exc. VAT)

You won't need to travel to the sea when you can fish from your own boat in your own playground.

The Fishing Boat is a wonderful low level play structure. It is accessible for children of varying agilities and encourages children to work together to develop wonderful stories as a backdrop to imaginative play games.

Our play boat has a decking base and sits below 0.6m (2ft), it can therefore be safely installed on either grass or tarmac.

The price highlighted above is the price for the build spec featured. Name plaque available as optional extra.

Product Code: EPPHC090785
About this Boat

- Translucent timber protection finish
- Walls in lancelot blue
- Window frames in red and gables in mais yellow
The Battle Ship

£3,605 (exc. VAT)

The Battle Ship comes with a covered shelter or cabin as standard and provides protection from both light drizzle and bright sunlight.

This easily accessible play boat has lots of space both on deck and in the “wheelhouse” and makes both a terrific focal point for imaginative play and a super spot for some rest and relaxation during hectic play times.

The wheelhouse sits to the stern of the boat and provides a covered area with low panel walls to the sides that give passengers a good view of the rest of the playground and teachers a great view into the cabin.

Product Code: EPPHC140245
About this Boat

- Translucent timber protection finish
- Walls in natural.
The Tug Boat
From £1,050 (exc. VAT)

Sturdy and strong with different shaped portholes and easy low level access our Tug Boat is an ideal piece of play equipment for nurturing young imaginations and thereby helping early learners grow in confidence.

The Little Chunky Tug Boat has a sheltered stern with full rear and side walls to provide passengers with protection from large waves and cold winds.

The rear wall includes two circular portholes and each side wall has an arched porthole.

Access to the Tug Boat can be made from either the port or starboard side of the boat which creates a lovely “through play route” and helps to minimise congestion.

Stages

A Playground stage provides children with a space to perform and is a great way for them to express their creative sides. They can be their own directors and their own actors to really let their imaginations flow.

An outdoor stage also provides a space for children to perform music that they have composed individually or with ‘the band’ using their pots and pans, plastic bottles, log drums or bin lids to explore natural sounds.

So, whether it be acting out stories, singing or dancing, or simply reading together, a stage can provide a space where children can feel confident to show their creative flair through performance.
About this Stage

- Translucent timber protection finish
- Edging and frames in natural
- Walls in teak.

Teak  Natural
The Castle Playground Stage

£6,230 (exc. VAT)

This wonderful combination of outdoor stage and play castles provides a striking structure for any playground.

An open air castle tower is set either side of a large stage.

The towers sit at ground level and each has a large open doorway to the front and a small internal staircase that leads to another door providing side access to the stage.

Each tower has four narrow castle style windows to enhance the “castle feel” and provide “look-out” points during play, as well as seating along the back wall and to one side so children can sit while waiting to go on stage. The stage is painted with rubberised anti-slip paint.

The Barbican Playground Stage

From £1,135 (exc. VAT)

The Barbican Playground Stage provides the ultimate in low cost outdoor enabling environments by giving children their own outdoor space that’s tailor made to encourage creativity.

Getting outdoors can often result in seeing children thrive in different ways and can reveal previously unseen talent and aptitudes in many children.

Available in four sizes to suit different sized playgrounds, The Barbican Playground Stage is a low raised open air square platform with square edges.

The price highlighted above is the price for the build spec featured. Rubberised Anti Slip Paint available at an extra cost; please see the website for details.

Product Code: WT101267
The Old Vic Playground Stage

The Old Vic Playground Stage provides a designated outdoor space where children can throw themselves in the roles of actors or directors as they let their creative sides go and learn how to work together.

Available in four sizes to suit different sized playgrounds, The Old Vic Playground Stage is a low raised open air platform with the front edges shaped to minimise "intrusion" into the playground.

Rubberised Anti-slip paint available at an extra cost; please see the website for details. The price highlighted above is the price for the build spec featured.

Product Code: WT120553
Children love to play and while play is fun, it is also a crucial avenue for children to learn physical, cognitive and social skills.

Sand play is a sensory experience and a great tool for the development of all these skills. A sandpit invites inclusivity and participation, children share ideas and tools and learn how to listen to and learn from each other and the sand itself allows for explorative play as children investigate its texture and qualities noticing what happens when a little water is added.

A sandpit provides a designated play space where children can work together to construct roads, build castles or dig tunnels whilst sharing tools and learning social skills.
Regular Covered Sandpit

From £1,105 (exc. VAT)

A defined sand play space has many advantages; it contains potential spills and creates a central play area that can be easily supervised.

A regular covered sandpit provides protection from bright sunshine and drizzle and therefore play is not limited by bright sunshine or intermittently drizzly days.

The sandpit is located in the middle of the structure and has sliding wooden lids that cover the sand when the sandpit is not in use.

The lids slide to the side when the sand area is in use, providing a shelf for play equipment. The wooden lids require two people to manoeuvre them. The price highlighted above is the price for the build spec featured.

Product Code: SP080160
Large Covered Sandpit

From £2,250 (exc. VAT)

Playing in sand is fun and inclusive and our large covered sandpits provide plenty of space for lots of interactive play. A covered sandpit with removable sturdy wooden lids also becomes an outdoor stage if required.

Playing with sand appeals to lots of children and really draws kids in to the idea of playing together. A bigger sandpit means a larger number of children playing, sharing and creating together. A large covered sandpit also provides lots of surrounding space where children can clamber around and supervise each other as well as providing space for lots of play equipment that might be required at any given moment.

Wooden or canvas lids are available at an additional cost. The wooden lids require two people to manoeuvre them. The price highlighted above is the price for the build spec featured.

Product Code: SP091133
Regular Ground Sandpit

From £245 (exc. VAT)

Sand is a great sensory resource for Early Years Learners, allowing children to create an imaginary world with the simplest of toys and helping them develop hand/eye coordination as they dig and build.

Ground sandpits have a small ledge or lip surround which can be used as a seat allowing children to sit and bury their feet in the sand.

Regular Ground Sandpits are available in three different sizes with a choice of wooden or canvas lids. The wooden lids require two people to manoeuvre them.

Product Code: SP500122
Sand play encourages purposeful and self-initiated play where children make and amend the rules and adults can only wonder at the inventiveness of young imaginations.

Our large ground level sandpits provide a central play location where children can work together or separately but always within proximity of each other so they can share and listen, developing communication skills as they chat and play.

Large ground sandpits have a small ledge or lip surround which can be used as a seat as well as a central bench seat for children to sit on as they play.

Large Ground Sandpits are available in three different sizes with a choice of wooden or canvas lids. The wooden lids require two people to manoeuvre them.

**Product Code: SP110885**
Teachers know that outdoor play is central to young children’s learning and development and can often boost children who don’t thrive as well in a classroom situation.

A Table Sandpit provides the perfect setting for lots of active play where children can begin to develop ideas such as counting and measuring which they can then take back into the classroom to help bring core curriculum concepts “alive”. At a height of 550mm (1ft 9in) from the ground Table Sandpits are an ideal height for early year learners and provide a contained area for potentially messy play.

Our standard table sandpits are available in four different sizes with a choice of wooden or canvas lids. The wooden lids require two people to manoeuvre them.

The price highlighted above is the price for the build spec featured.

**Product Code: SP091244**
Giant Table Sandpit

From £765 (exc. VAT)

One of the beauties of playing with sand is that there is no right or wrong way... there’s just play, and play builds confidence and helps children assimilate new ideas.

Our giant table sandpits are available in three different sizes with a choice of wooden or canvas lids and provide the perfect setting for children to engage in enhanced play. The wooden lids require two people to manoeuvre them.

A Giant Table Sandpit provides the opportunity for large groups of children to play together and therefore helps teach concepts such as sharing and listening which are crucial elements in childhood development, as well helping to define their fine and gross motor skills.

The price highlighted above is the price for the build spec featured.

Product Code: SP101056
Play & Store

Playground storage is a huge issue in schools and nurseries so we have designed a sturdy and innovative approach to outdoor storage solutions to suit all spaces and budgets.

The unique design of our flexible Play & Store units means that they can be used both as secure storage and as a space for creative role play: take out the play things and undo a few bolts to reveal a new way to use your outdoor storage areas.

Our larger storage units can be used as a play space and storage at the same time while the smaller units are easily transformed from storage to play space in a few easy moves revealing “secret” windows or doors allowing for a large range of imaginative play options.

Play & Store units are weatherproof and have a carefully constructed sloping roof to prevent rain retention.
The Supermarket

£2,960 (exc. VAT)

This five door unit is the largest in our Play & Store range and comprises the majority of features of all our other units to give maximum flexibility to storage and play.

Each door is independent of the other, with its own piano hinges and high set bolts.

The door on the far left with a low set “secret” removable window is hinged on the left. The next door with “secret” removable inset door is hinged on the right. The third door with another removable “secret” window is hinged on the left. The fourth door is hinged on the right and has another removable inset door and the final door with removable “secret” window is hinged on the right.

Product Code: PS150551
The Play & Store Garage is our second largest unit in this versatile range. It has three doors to the front two of which open to the right hand side whilst the door to the far left opens to the left hand side.

All doors are hinged with "piano" hinges and each door is independent of the others to maximise versatility and flexibility of use. Each door also has a bolt at the top, far away from little fingers.

The door on the front far right has a “secret” removable inset window with window ledge, there is also a smaller “secret” hinged door on the right hand side. Both of these open from the inside.

This additional access point is useful when it comes to storing or removing large items from inside the unit but more importantly creates an additional entry or exit point in active play games.

**Product Code: PS150550**

£1,595 (exc. VAT)
The Cottage

£1,515 (exc. VAT)

The Cottage is so called because of the integral cottage style window in the left hand side of this Play & Store unit.

This window is fully glazed in super tough polycarbonate and is fully secure and weatherproof.

This single window provides a starting point for imaginative role play games whilst the unit itself provides the same internal storage and/or play space as the Double Store.

To the front are two independently lockable doors, the door on the front left hand side includes a “secret” inset window with window ledge.

Product Code: PS150549
The Corner Shop gets its name from the low set integral window in the front left hand door of this Play & Store unit.

The double doors are hinged with piano hinges and bolted at the top to prevent mishaps involving little fingers.

The internal space is not partitioned, allowing large items to be stored easily and facilitating ease of access.

The corner shop includes a removable “secret” integral window in the left hand door and a removable “secret” integral door in the right hand one. Both of these removable items are held in-place by bolts inside the unit.

**Product Code: PS150548**
The smallest of our Play & Store range, the single store nonetheless makes a big impact when it comes to increasing storage space in a playground.

A single unit with a door to the front, the Single Store provides plenty of space for lots of outdoor play equipment.

The door is hinged on the right hand side using a “piano” or continuous hinge which eliminates the chance of little fingers becoming trapped when the door is open.

Once equipment is taken out of the Single Store, the store can become a focal point for role play games and may find itself transformed into a ticket office or waiting room or indeed anything that young imaginations can invent.

**Product Code: PS150546**

---

**Double Store**

**£1,170 (exc. VAT)**

At twice the length of our Single Store the Double Store provides twice the potential storage space and offers much more in terms of versatility and role play options.

The Double Store has two doors to the front with external bolts placed at the top of each door allowing independent locking/opening. Both doors are hinged with “piano” or continuous hinges to eliminate the potential of children trapping their fingers when the doors are open.

The Play & Store Double Store does not have an internal dividing wall which means it is possible to store and manoeuvre large items easily.

There is great potential for combining playground storage with a play area for children. All you need to do is take out toys and play equipment and children then have a lovely space to explore. A space that's tailor made for their statures where they can feel safe and allow their imaginations to dream up plenty of new games.

We build all our units from scratch so we can make something to precisely suit what you need to store and where you need to store it.

Just give us a call and tell us what you have in mind.
Planters

There's no denying that many young children respond well to active learning, they love tactile exploration, they love getting stuck in and messy.

Playground Planters are a great way to nurture and develop this natural appetite for active learning. They build on children's' natural inclination of being “hands on”, they provide an easy way to introduce topics such as food production and they support not only active but interactive learning as children work together.

Designed with children in mind, our planters are built at a height and width perfect for ease of use. They can be constructed in a variety of shapes and sizes.

Children can also paint the planters adding their own creative and imaginative touch while adding some fun colour to the playground. Seats can also be incorporated into the planters giving them further practicality.
Octagonal Planter

From £390 (exc. VAT)

A quirky octagonal shaped planter can also motive budding gardeners and add variety to the school playground.

Sometimes avoiding disappointment is necessary in when introducing children to gardening. Our octagonal planters are ideally suited to growing central sturdy shrubs that need less attention than other plants, so that if some experiments fail, there should still be enough growth to keep children interested.

Octagonal planters are available in a three different sizes and with or without seating.

The price highlighted above is the price for the build specification featured.

Project Code: BP500176
Gardening is a great way to stimulate children’s senses and our playground planters allow schools to introduce the idea of gardening to children in a way that’s not overwhelming or boring but fun and interesting.

Children can be involved in every aspect of “planter projects” from choosing what to grow to sampling the end results and there are plenty of great online resources that offer great advice for young horticulturists through-out the year.

The price highlighted above is the price for the build spec featured.

Interlinking Benches for Planters from £25

**Product Code: BP210315**
Great fun and long lasting life lessons go hand in hand when children get outdoors and start to observe and question their environment.

What happens to the plants in their planters if it doesn't rain or if it rains too much? Why do different plants thrive more in the shade than the hot sun; a playground planter can help answer these questions and really make the curriculum come alive.

Our rectangular planters are available in three different sizes, each available in two different heights allowing you to choose what best suits your children and your playground and have a variety of sizes within the same location so that children of different ages can work together.

The price highlighted above is the price for the build spec featured.

Seating

Although children love running around the playground having somewhere to sit is every bit as important.

Playground seating areas have multiple uses; they provide a safe place for children to sit on their own if they are feeling timid, a place where they can watch others and build confidence to join in the fun and they also provide space where children can be with their friends and either read, have a chat or play less active games.

Seating areas are also a great way to take the classroom outside for some fresh air during story times, safe in the knowledge that children won't be sitting on damp grass or hard concrete.
A Story Teller’s Set comprises a Story Teller’s Chair and Four Story Time Benches. It creates a super spot that makes every story time special and comes at a reduced price when buying the chair and benches as a set rather than as individual items.

Each set provides a regal chair for the story teller and seating for up to 16 children, extra benches can be purchased at any time.

The four Story Time Benches can be arranged to make a lovely semi-circle around the Story Teller's Chair, reminiscent of a fairy ring and creating a magical spot for story times.

Story Teller’s Sets are free-standing and arrive assembled and ready for immediate use.

Product Code: LC120896
Story Time Benches are the perfect place for sitting and listening to enthralling and exciting stories. They keep children off damp grass or hard concrete and allow them to engage with the story and story teller.

The gentle curve of our wooden Story Time Benches adds character and makes our benches special and cosy. Each bench can seat 3 or 4 children and when placed next to each other they begin to take on the form of a semi-circle and then a full circle.

Story Teller’s Chair

£535 (exc. VAT)

The Story Teller’s Chair stands regal and proud and sets the scene for a special and captivating story time.

The Story Teller’s Chair has a high back and wide arm rests. It is supportive and comfortable and just the place for children or teachers to settle down and mesmerise an audience with an exciting story of “daring do”.

**Product Code: LC120894**

Story Time Benches are the perfect place for sitting and listening to enthralling and exciting stories. They keep children off damp grass or hard concrete and allow them to engage with the story and story teller.

The gentle curve of our wooden Story Time Benches adds character and makes our benches special and cosy. Each bench can seat 3 or 4 children and when placed next to each other they begin to take on the form of a semi-circle and then a full circle.

**Product Code: LC120895**
For a chair that's perfect to share with friends and gives everyone who sits in it a great big bear hug ... look no further than our Bear Chair.

The Bear Chair has a high fluted back and large curved arm rests that make children feel comfortable and safe, just the right conditions for settling down to have a good chat with friends or to read a good book.

A wonderfully versatile piece of playground equipment, the fluted back gives the Bear Chair a regal appearance so it can be a great prop for outdoor imaginative play, becoming a throne fit for Kings and Queens or even the Captain's seat in a space-ship.

Product Code: LC110248
Picnic Bench

£340 (exc. VAT)

Strong, sturdy and sociable, Little Chunky Picnic Benches are a super addition to playgrounds. Providing a spot for some alfresco dining or just a great place to sit and natter at break time.

There's more to a picnic bench than a picnic though; not only to they provide a designated space for outdoor snacks or lunch, keeping children off hard concrete or damp grass, picnic benches have lots of other functions too.

Picnic benches can also be a space where any playground “time out” is taken, where outdoor crafts are practised and they can provide a useful place for all sorts of play equipment during break times.

Picnic Benches are free-standing and arrive assembled and ready for immediate use.

**Product Code: LC151152**
Obstacle Trail

The Little Chunky Obstacle Trail is a unique design that combines children’s playtime fun with multiple learning opportunities.

Designed specifically for the under-fives, it is a great resource for physical activity as children can crawl, climb, walk or jump along it as they explore and observe the different elements of the trail. The Trail provides a fun and enabling environment for children to develop their co-ordination, movement and direction as well as understanding and describing shapes and colours.

Each complete Obstacle Trail includes stepping stones, a triangular, circular and square climb through and two balance beams. Each element is also available as a standalone product so you can add more elements and design your own unique trail.
Praised by teachers as a unique and enabling environment for young children, the award winning Trim Trail from Little Chunky is specifically designed for preschool children and has the concept of learning through fun at its core.

Offering an array of activities, the Trim Trail is a great resource that combines playtime fun with opportunities for gaining physical confidence and multiple learning experiences.

Each Trim Trail contains two balance beams, a stepping stone set and three climb/crawl throughs; a circle, a square and a triangle. The stepping stone set is made up of different shapes, a circle, square and triangle to reinforce the shapes of the climb throughs.

Product Code: LC130718
Balance Beams are a great resource for encouraging physical development in preschool learners, helping them to gain confidence in movement and improve their coordination and balance.

Painted with special anti-slip paint Balance Beams teach children perseverance, concentration and determination as they master the art of balancing and the bright yellow colour brings a ray of fun and sun into the playground on even the greyest of days.

The sturdy brackets at each end of the balance beam ensure that it stays in position and will withstand hours of active fun and play.

**Product Code: LC130720**

Stepping Stones are bright and enticing, a great asset for nursery and preschool playgrounds. They provide a clever way to facilitate the development of physical and cognitive skills of young children.

A stepping stone set has a red circle at one end, a yellow square in the middle and a green triangle at the other end.

Children can walk, crawl or jump along the stepping stone set which will help with co-ordination skills while also reinforcing classroom learning about shapes and colours.

**Product Code: LC130721**
Climb/crawl throughs are another clever way to encourage the development of physical and cognitive skills in early learners. They are also lots of fun!

All climb-throughs are painted in bright colours that will always contrast with playground surroundings.

The climb-through is fixed to sturdy brackets at ground level which provide counterbalance and ballast to ensure the product is safe, robust and remains standing after a rigorous play time.

Children love to climb, clamber and crawl through and as they do they are learning and practising all sorts of physical skills as well as co-ordination and social skills such as sharing and waiting for others.

Product Codes: LC130724, LC130722 and LC130723

---

Ready to Order?
Planning Your Project

As you will see in the catalogue we have a very wide range of products; all designed to be standalone.

Aside from a small number of simpler products (such as picnic benches) we deliver and install all products so they are completely ready for the children to enjoy.

Sometimes you need something a little different, perhaps to fit in with a bigger plan. It may be you have sloping ground or a tree you would like us to build around. Or you like more than one of our products and wonder if they could all be joined together.

Creating something special, just for your school, is a speciality of ours. All we need to get the creative juices flowing is as much information as you can offer, including:

- What type of product are you looking for?
- What size you are looking for?
- What will it be used for?
- What age range is it for?
- How many children are likely to be using it at the same time?
- Have you got a budget?
- What surface is it going on?
- What sort of location do you have in mind i.e. close to boundary, amongst tress, on a slope?

Once we've got a feel for what you need we may pay you a site visit to make sure we have all the detail we need. We will then produce visuals of how it could look and then specifications which work within your budget.

Working in Schools

Our products are delivered by our team or occasionally in the case of small items, by a trusted courier.

When we supply to schools, we take our safeguarding responsibilities very seriously, not just in the products we supply but also our time on site. You can expect courtesy and efficiency from our staff and all are DBS certified and experienced in working within an educational environment. Our team will always:

- Report to the school office with identification and comply with local guide lines on access.
- Be wearing a clearly identifiable uniform.
- Work in a safe and professional manner.
- Remain courteous at all times.

We have worked in many school establishments across the UK and we are always happy to supply references on request.

We have a Method Statement and Risk Assessment download available from our website.
Delivery & Installation

All orders over £1,000 include FREE delivery and installation to the UK mainland (excluding the Scottish Highlands to below Edinburgh and Glasgow).

A standard delivery charge of £95 applies to all other orders in Mainland UK (excluding above Edinburgh and Glasgow).

We’re happy to deliver throughout the United Kingdom and Europe but this would incur an additional cost, please contact us for details. For all other locations please get in touch and we will provide you with a quotation.
Maintenance Package

The Classroom Loft Maintenance Package is a service offered to all Classroom Loft customers.

The package guarantees that one of our ROSPA qualified and DBS checked maintenance team visit your school once a year to carry out maintenance and safety checks ensuring that your loft stays in tip top condition which in turn preserves and increases the lifespan of your Classroom Loft.

The maintenance package frees schools from the time consuming task of performing risk assessments and offers the confidence in knowing that all safety aspects of your Classroom Loft are maintained by a skilled and professional team.

The checks will include the following aspects:

- General assessment of the loft in situ
- Sanding and varnishing any damaged edges
- Checking all fixtures are secure
- Repairing any minor issues
- Replacing any worn flooring if required
- Undertaking Health and Safety checks
- Completing a new Risk Assessment
- Issuing a new Risk Assessment Certificate

Costs

£135 per Loft below the value of £4,000 per year

£175 per Loft above the value of £4,000, per year

Save £75 and benefit from reminder service if you sign up for a 5 year contract

£600 per Loft below the value of £4,000 for 5 years

£800 per Loft above the value of £4,000 for 5 years

If you have any questions or would like to sign up to our Classroom Loft Maintenance Package please email us at info@educationalplay.co.uk or telephone us on 01544 387103.
Our Guarantee

The longevity of our products is very important. We design and build to maximise the lifespan of your play equipment.

Our products are guaranteed against structural and design defect for the periods shown below:

• Playhouses, Shelters, Coloured Timber Castles, Platforms - 2 years
• Classroom Lofts, Tanalised Castles, Boats, Stages, Sandpits, Play & Store, Planters, Seating, Obstacle Trail - 5 years

This does not cover acts of vandalism, misuse or exceptional natural events.

Walls and General Construction

Timber that is pressure treated is guaranteed against rot and insect attack for 5 years. All other timber is guaranteed against rot and insect attack for 2 years. Polycarbonate glazing sheet is guaranteed unbreakable for the life of the product.

As long as the maintenance instructions are adhered to, the product will last substantially longer.

Roofs

Mineral felt and felt shingle roof finishes are guaranteed for 5 years.

Cedar shingle roof finish is guaranteed for 10 years.
Our products are fully treated before delivery, so children can play straight away.

**Tanalised Timber**

Tanalised wood has been treated under pressure with substances which give the wood a longer lifespan. Tanalised products do not have different colour options, just a rich natural wood finish.

**Colours and Finishes**

**Coloured Timber Protection**

We use high quality translucent timber protection, in a wide range of colours.

The translucent timber protection soaks into the wood giving excellent weather proof protection still while allowing you to see the grain of the wood.

Most of our products are available in these colours:

- Blueberry
- Opal White
- Lancelot Blue
- Red
- Grass Green
- Teak
- Chicago Grey
- Mais Yellow
- Smokey Blue
- Natural
- African Violet
- Eucalyptus
- Black
Roof Options

We offer a choice of different roof options to suit your needs and budget.

Cedar Shingle Roofing
Natural Canadian cedar shingles give a beautiful finish. The shingles are initially a reddish brown colour, but within a year will naturally go a silver grey colour.

Felt Shingle Roofing
A durable product with an attractive finish which resembles individual house tiles.

Mineral Felt Roofing
A standard finish, that is durable and good at keeping out the weather.
