

Octagonal Planter

Reference:BP500176

Price: from £410 (exc. VAT)

Just as growing brightly coloured flowers and tasty herbs and vegetables can inspire children to take an interest in gardening; a quirky octagonal shaped planter can also motivate budding gardeners and add variety to the school playground.

Sometimes avoiding disappointment is necessary in when introducing children to gardening. Our octagonal planters are ideally suited to growing central sturdy shrubs that need less attention than other plants, so that if some experiments fail, there should still be enough growth to keep children interested.

Octagonal planters are available in a three different sizes and with or without seating.

The seating option offers the opportunity for a nice place to sit down and admire whats growing.
