

## Creative Corner Loft

Reference: CL120241

Price: £4,030 (exc. VAT)

**A free-standing loft that snuggles into the corner of a classroom, the Creative Corner loft has been designed to bring new life and purpose to weary corners and to transform them into vibrant multipurpose areas. This loft is primarily aimed at Key stage 1 and 2 learners.**

The ground floor area has a large open doorway to the front with a low panelled wall to one side and a full panel wall on the staircase side.

The open access and low panelled wall mean that there is good visibility into the lower loft area from the classroom and also that this area is light and well ventilated.

There is a small "hide-away" area underneath the stairs which is accessed from the lower loft and can be used as an area for storing plastic storage containers or other items.

The upper loft area is a super and spacious area that can be used for individual or small group learning or an area for role play or class assemblies and the loft as a whole can be used as a prompt for class or school plays.

The staircase can be positioned on either side according to classroom requirements.

Balustrade rails protect the upper loft and staircase.

The stairs and upper loft are fitted with soft floor tiles.

The balustrade rails above and the wooden panels below can be used to showcase children's work and so personalises the loft

## Dimensions

### Colours

Finished with Timber Protection.

Clear Varnish

## General Information

### Guarantee

Our Classroom Lofts are guaranteed against structural and design defect for 3 years - this does not cover acts of vandalism, misuse or exceptional natural events.

- The product must not be physically adjusted or modified
