

Wooden Castle Play Platform

Reference: EPPHC160373

Price: from £8,670 (exc. VAT)

Available in two sizes to suit different sized playgrounds and budgets our Free Flow Castle Play Platform is great for active fun, guaranteed to fire imaginations, excite plenty of classroom discussion AND creates a real statement in the playground.

A staircase on the right hand side leads to the first raised "lookout" tower which then leads to a walkway and open platform. The second walkway takes you to the second raised "lookout" tower and the third walkway leads to a second staircase down to the ground level castle "turret".

This castle really encourages active fun and endless circuits as children are drawn around the interlinking walkways, it combines the excitement of being higher than ground level and that of being in a castle where you never know who you might meet around the next corner. Will it be friend or foe ...or dragon?

The towers and turrets all have open doorways and narrow castle style windows and the open platform is left free for children to develop their own ideas for the space.

The open platform can also be a super place for summer story times.

The staircases, walkways and open platform are protected by balustrade rails.

Please note that as the size increases the walkways increase from 1.5m (4ft 11in) to 3m (9ft 10in) but the heights of the walls and the dimensions of each tower remains constant.

Dimensions

General Information

Guarantee

- The product is guaranteed against structural and design defect for 3 years - this does not cover acts of vandalism, misuse or exceptional natural events

As long as the maintenance instructions are adhered to, the product will last substantially longer.

Maintenance Required

- Ensure that an air gap is maintained under the base and around all sides; check on a regular basis to ensure that there is no build-up of debris.
- Check edges and corners regularly to ensure that knocks to the structure have not caused a splinter hazard, if that has occurred sand down with sandpaper and re-treat the sanded area.
- The wood preservative will need re-coating every so often; (the same type of time scale as your house) this does depend on the prevailing weather conditions but would typically be 2 - 4 years.

Be aware

- If decking becomes slippery in the wet this is due to microscopic fungi on the surface, wash off with a diluted bleach solution.
- If small mould growths appear on the inside this is due to lack of air circulation, wipe down with a diluted bleach solution as soon as visible.

Delivery & Installation

- Delivery and installation to the UK mainland (with the exception of anything above Edinburgh/Glasgow) is included in the price of this product.

We are happy to deliver throughout the United Kingdom and Europe but this would incur an additional cost, please [contact us](#) for details.

Specification

All our products are built to fully comply with EN1176-1 playground regulations

Build Specification

The following specification reflects that of the featured build with the price shown at the top of this document. Please refer to our website for details on other build options.

Doors

Doorways

Open doorways are normally used on our castles or open structures, providing a great access route to all areas

- Made from good quality redwood, planed with swept edges
- Fits snugly within the wall of the structure to give a neat doorway/entrance
- Fully treated in your choice of colour from our standard range

Floor

Decking raised platform

A standard platform construction for all raised projects, this can either be used as an open platform or have a building installed directly onto it.

- Posts 100mm x 100mm pressure treated redwood planed with swept edges
- Spacing as appropriate but a minimum of 1.8m centres
- Bearers to be 100mm x 50mm pressure treated bearers
- The structure is fitted together using 150mm, 100mm and 80mm zinc yellow screws
- Braces are fitted at the top of each post
- Posts fitted into ground as appropriate
- If required, concrete is used to secure posts in to the ground
- 125mm x 35mm good quality pressure treated grooved decking boards are fitted to the bearers using decking screws
- A skirt is fitted around outside edge of platform

For an additional cost the decking can be painted with an anti-slip paint, please ask for details.

Windows

Unglazed

Windows are built as a separate unit; once finished they are sanded and treated prior to being fitted.

Other Options

This castle can be customised to your preference by changing the build specification. The different build levels are explained in detail on our website.

This table shows the cost of the different build levels that are available.

	Price
4.5m x 4.5m (14ft 9in x 14ft 9in)	£8,670
6m x 6m (19ft 8in x 19ft 8in)	£10,330
