

Regular Covered Sandpit

Reference:SP080160

Price: from £1,170 (exc. VAT)

A defined sand play space has many advantages; it contains potential spills and creates a central play area that can be easily supervised. A covered sandpit also provides protection from bright sun.

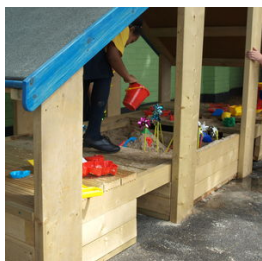

A regular covered sandpit provides protection from bright sunshine and drizzle and therefore play is not limited by bright sunshine or intermittently drizzly days.

The sandpit is located in the middle of the structure and has sliding wooden lids that cover the sand when the sandpit is not in use.

The lids slide to the side when the sand area is in use, giving a shelf for putting play equipment.

The roof of our Regular Covered Sandpit is finished with mineral felt and a fascia board fitted.

Regular Covered Sandpits are available in three different sizes to suit different playgrounds and different budgets.

Dimensions

Colours

Finished with Timber Protection.

Pressure Treated Timber

Lancelot Blue
