

Step Up - The Explorer

Reference:SU160250

Price: £3,705 (exc. VAT)

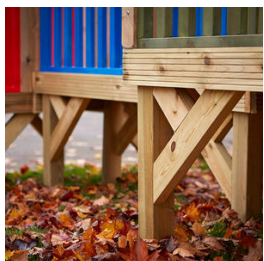

The third of our Step Up range, The Explorer includes four interlinked platforms to encourage a variety of active outdoor play and help children gain confidence in skills such as balance and co-ordination

The Explorer has one large 1.8m square platform to the rear, a central 1.5m square platform and two 1.2m square platforms with staircases.

The clever design of the Explorer enables free flow yet contained play where children can learn and practice social skills such as sharing and turn-taking as well as gaining confidence in physical skills and enjoying the sensation of being “up high” and getting lots of fresh air

Walkways from each of the staircase platforms lead to the central platform and another walkway then leads from the central platform to the rear platform.

The entire structure is protected with balustrade rails painted in bright and attractive colours, and the stairs in black anti-slip rubberised paint.

General Information

Guarantee

Step Up Guarantee

Our Step Up products are guaranteed against structural design and defect for 2 years - This does not cover acts of vandalism, misuse or exceptional natural events

As long as the maintenance instructions are adhered to, the product will last substantially longer

Maintenance required

- Regular visual checks to ensure that no knocks have resulted in a rough edge edges
- Sand any knocks with sandpaper and re-treat the sanded area
- Ensure there is no build-up of debris that might cause damp or staining to the structure
- The wood preservative will need re-coating every so often; (the same type of time scale as your house) this does depend on the prevailing weather conditions but would typically be 2 - 4 year

Be Aware

- If decking becomes slippery this is due to microscopic fungi on the surface and can be washed off with a diluted bleach solution

Delivery & Installation

- Delivery and installation to the UK mainland (with the exception of anything above Edinburgh/Glasgow) is included in the price of this product.

We are happy to deliver throughout the United Kingdom and Europe but this would incur an additional cost, please [contact us](#) for details.

Specification

All our products are built to fully comply with EN1176-1 playground regulations

Build Specification

The following specification reflects that of the featured build with the price shown at the top of this document. Please refer to our website for details on other build options.

Floor

Decking raised platform

A standard platform construction for all raised projects, this can either be used as an open platform or have a building installed directly onto it.

- Posts 100mm x 100mm pressure treated redwood planed with swept edges
- Spacing as appropriate but a minimum of 1.8m centres
- Bearers to be 100mm x 50mm pressure treated bearers
- The structure is fitted together using 150mm, 100mm and 80mm zinc yellow screws
- Braces are fitted at the top of each post
- Posts fitted into ground as appropriate
- If required, concrete is used to secure posts in to the ground
- 125mm x 35mm good quality pressure treated grooved decking boards are fitted to the bearers using decking screws
- A skirt is fitted around outside edge of platform

For an additional cost the decking can be painted with an anti-slip paint, please ask for details.
